

NUMBER 1 WALK STARTING FROM THE VILLAGE HALL

From the village hall, cross over the road & left towards the Church. After the graveyard entrance on the right take a driveway on your right leading to Aston Court Farm.

Pass through the farmyard bearing left to a field gate & stile. Once over this stile bear right uphill heading towards another field gate & stile.

Go over this stile. The path is diagonally across this field towards a large oak & then continue on the same line to a footbridge.

Cross over this bridge & head diagonally left towards a gap (or temporary gate) in the field boundary.

Continue through this gap /gate with the hedge on your right. Passing some old farm buildings on your left you will come out on a driveway/track. Turn right.

At the junction with the road proper turn left.

At the next junction turn left again signposted Aston Crews/Lea , passing several houses on your left & right.

After approx 500 yards you will come to a footpath sign on your left. Take this path & head in the direction of a tree & pond in the middle of the field. Continue on this line to stile.

Cross this stile & continue over one more stile with the field boundary on your left until you come to a very muddy ford.

Cross this ford the best you can (you may find it easier if you cross well to the right). Once over the ford continue on the same line crossing 2 more stiles until you reach the B4222.

Turn left through the Church yard back to the hall.

Please keep dogs under control.
This walk can be very muddy.
Approx. distance 2 miles.
